## ABSTRACT

A free national library service providing recorded and braille materials is administrated by the National Library Service (NLS) for the Blind and Physically Handicapped in the Library of Congress. With the cooperation of authors and publishers who grant permission to use copyrighted books, NLS selects and produces full-length books and magazines in braille and on audiodisk and cassette. The reading materials are then distributed to a cooperating network of 56 regional and 92 subregional libraries that circulate them to eligible borrowers by postage-free mail. In the first section of the directory, the NLS network libraries and machine-lending agencies are arranged alphabetically by state. Each entry includes the library's address, phone and FAX numbers, operating hours, name of contact librarian, a description of the collection, assistive devices and special services offered, and the library's publications. Within each state the regional library appears first, followed by subregional libraries listed alphabetically by city. In several states two regional libraries have been established; in these instances, the specific service area of each library is shown. Regional libraries that also function as machine-lending agencies are identified by an asterisk. Separate machine-lending agencies (if any) are listed as the final entry for a state. The directory's second section is devoted to additional library resources available from 15 private organizations, e.g., the Braille Association of Kansas, Inc., which are arranged alphabetically by the name of the organization. These entries provide information on eligibility requirements, special media, subject coverage, and the organization's lending policies. Two appendixes, which make up more than a third of this publication, provide statistics on the readership and circulation, budgets, staff, and collections of the NLS network libraries.

## National Library Service

A free national library service providing recorded and braille materials to blind and physically handicapped persons is administered by the National Library Service for the Blind and Physically Handicapped, Library of Congress (NLS). With the cooperation of authors and publishers who grant permission to use copyrighted works, NLS selects and produces full-length books and magazines in braille and on recorded disc and cassette. The reading materials produced are then distributed to a cooperating network of regional and subregional libraries that circulate them to eligible borrowers by postage-free mail. Network libraries also offer reference, readers' advisory, and other services.

Established by an act of Congress in 1931 to serve blind adults, the program was expanded in 1952 to include children, and again in 1966 by Public Law 89-552 to include individuals with physical impairments that prevent the reading of standard print. Fifty-six regional and 92 subregional libraries are currently part of the network, serving all parts of the United States, Puerto Rico, the Virgin Islands, and Guam.

Playback equipment is loaned free for use with books and magazines recorded on disc at 8 and 16 rpm and on cassette at  $1\frac{7}{8}$  and  $1\frac{5}{16}$  ips. Special accessories supplied on request include special amplifiers, remote control units, breath switches, extension levers, and pillowphones. Libraries and other designated machine-lending agencies serve as distribution points for playback equipment and accessories.

Applications for library service from eligible persons or institutions such as hospitals and nursing homes are made directly to the network library or machine-lending agency serving a particular geographic area. Application forms, demonstration equipment, and sample reading materials are available in many local public libraries.

American citizens temporarily living abroad receive service directly from NLS and should apply to the Network Services Section. International interlibrary loans may be arranged with NLS; however, direct service is not extended to individuals outside the United States, its territories, and possessions unless they are American citizens.

Music services are provided by the NLS Music Section which has an extensive collection of music scores, books, and instructional materials in braille, large print, and recorded media. Through its Reference Section, NLS serves as a national information resource on various aspects of handicapping conditions. The National Library Service also functions as a bibliographic center on reading materials for handicapped people and can make referrals to libraries and organizations that have materials in special media.

A number of not-for-profit organizations and volunteer groups which are not part of the NLS network also provide reading materials in special media on loan to handicapped individuals. Criteria for inclusion of these organizations are: services offered nationwide; a book collection sufficiently broad in subject matter to be of general interest; a minimum of two hundred titles available on loan; and circulation on the basis of free loan or for a minimal fee to cover basic costs. As additional organizations meeting these criteria become known, they will be included in future editions of the directory.

# Contents

---

## How to use the directory

Beginning on page 1, NLS network libraries and machine-lending agencies are arranged alphabetically by state. Within each state the regional library appears first, followed by subregional libraries (if any) listed alphabetically by city. In several states two regional libraries have been established; in these instances, the specific service area of each library is shown.

Regional libraries that also function as machine-lending agencies are identified by an asterisk (\*) immediately following the name of the library. Separate machine-lending agencies (if any) are listed as the final entry for a state.

The information about NLS network libraries and machine-lending agencies contained in the body of the directory and in Appendix II was provided by each network library and machine-lending agency in response to a questionnaire circulated in February 1990; readership and circulation statistics in Appendix I are for federal fiscal year (October–September) 1989. In the few cases where responses were not received or information was not available, data from the previous edition of the directory have been reprinted and footnoted. An effort was made to record changes in names, addresses, and telephone numbers up to August 1990.

Beginning on page 44, other library resources at the national level are arranged alphabetically by the name of the organization. Each entry indicates eligibility requirements, special media available, subject coverage, and lending policies, all of which may vary from one organization to another.

Requests for catalogs or further information about their services should be addressed to the appropriate organization and not to the National Library Service for the Blind and Physically Handicapped or its cooperating network libraries.

Free copies of this directory are available to libraries and organizations by contacting the
